

REEDSPORT SCHOOL DISTRICT

POLICY: CHARTER BOARD VACANCIES

CODE: BBEA

The Reedsport Community Charter School Bylaws state that "as terms of office expire, the charter board will propose nominees for the vacant charter board positions to the Reedsport School District Board of Education."

The process below will be employed for proposing nominees for vacant charter board positions:

- Before the charter board term of a **student** representative expires, the two student representatives will seek nominees from the student body. Each student who is interested in serving on the charter board will complete an application and submit it to the student representatives. A committee consisting of the two student representatives, two student body officers, the director/principal, and the charter board chair will interview the nominees and choose one final nominee to present to the district board recommending appointment to the charter board.
- Before the charter board term of a **teacher** expires, the two teachers serving on the charter board will request nominations from the charter school staff. The teachers serving on the charter board will compile a list of those nominees and distribute the list to each staff member with a request that each staff member choose one person from the list to serve on the charter board. The nominee with the most votes will be presented as a final nominee to the district board recommending appointment to the charter board.
- Before the charter board term of a **community** representative expires, the charter board will request nominations/applications from community members through letters home to parents at both the charter school and the elementary school and through announcements in the local media. Interested parties who fill out an application will be interviewed by a committee consisting of four charter board members (one teacher, one student, one community member, and the director/principal). The final candidate will be presented to the district board recommending appointment to the charter board.
- Before the charter board term of a **district board delegate** expires, the district board will request nominations or volunteers from its board of directors to serve on the charter board. If more than one member is nominated or volunteers, the district board will choose a single delegate from those proposed to serve as its representative on the charter board.

END OF POLICY

Adopted: 10/20/10
