

REEDSPORT SCHOOL DISTRICT

REGULATION: TUTORING/COACHING FOR PAY

CODE: GCQAB-AR

No tutoring or private coaching for which an employee is paid by a non-District source will be allowed on school property or on school time. School equipment or materials are not to be used as a part of paid tutoring or coaching.

To comply with District staff ethics policies an employee is to not talk with any student, parent or other person about paid tutoring during any portion of the paid school day. Further, it is not acceptable to receive pay for instruction in subjects that are a part of the normal instructional day.

It is critical to maintain a clear line of separation between teaching time/materials of the regular school District assignment and non-District paid tutoring or coaching.

Acceptable non-District paid activities includes music lessons and other enrichment activities that are clearly beyond the scope of the regular curriculum. Teachers may tutor for remuneration outside of normal school hours, students eligible for home-bound services, following established District procedures.
